Piovene Rocchette - Italy

DEA System comes to life

DEA's **vision** has always been **multinational** from the very beginning of its activities. We exported our challenge and values **32 years ago**, becoming a company highly renowned and appreciated worldwide for its quality automation products.

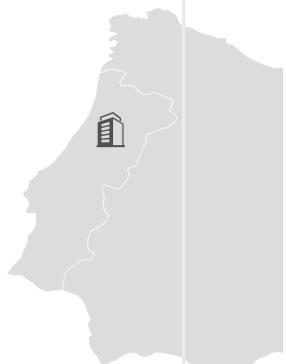

14

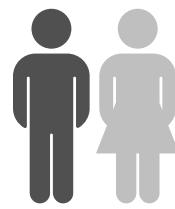

Branches in EEC and non-EEC countries

8 branches have been opened since 2012: this is the result of the **increasing need for local resource and capability**, coming from the positive feedback received by the international markets.

Six branches in France, two in the UK, one in Germany, Spain, Portugal, Belarus, Poland and Australia contribute to the promotion of the DEA brand, while guaranteeing and protecting the quality of its products.

- ✓ Italy (Piovene Rocchette HQ)
- ✓ France (Lyon, Nantes, Toulouse, Bordeaux, Montpellier, Marseille)
- ✓ United Kingdom (Hatfield - GB, Cookstown - IRE)
- ✓ Spain (Barcelona)
- ✓ Portugal (Viseu)
- ✓ Germany (Markt Indersdorf)
- ✓ Poland (Kęty)
- ✓ Belarus (Minsk)
- ✓ Australia (Sydney)

270

People all over the world

2

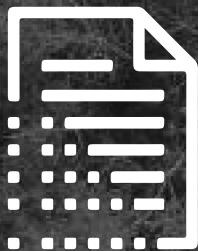

Production plants in Italy

DEA goes green because we care about the future

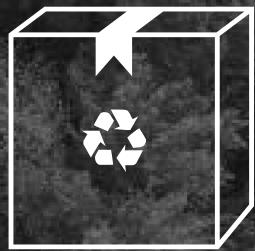

Here are the macro-categories we are working on

Digitising documents and reducing paper waste

Switching to electric vehicles and rail transport

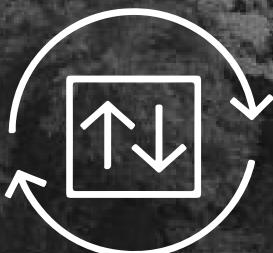

Use of packaging made of recycled cardboard

Improving energy efficiency in production facilities

Construction of a new 0% emissions plant

Supply chain management

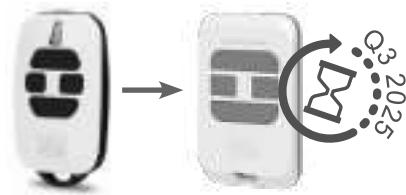

**Experience the world motorbike
championship with DEA**

Official Sponsor

GTX

Multifunction remote control, with 2 and 4 channels, featuring a new design and 4 models available.

GTX4

cod. 672673

4 and 2-channel remote control, frequency 433.92 MHz

GTX2

cod. 672670

GTX4/868

cod. 672681

GTX4M

cod. 672662

Cloning remote control, 4 and 2 channels, frequency 433.92 MHz

GTX2M

cod. 672660

GTX4N

cod. 672674

Anthracite remote control, 4 and 2 channels, frequency 433.92 MHz

GTX2N

cod. 672671

Which encodings can the **GTX** have?

GTX remotes are **multifunction** and have **three** possible encodings:

DIP SWITCH fixed code transmission (12 bit)

HCS Rolling Code variable code transmission (64 bit)

D.A.R.T. (DEA Advanced Rolling Code Transmission) the new Rolling Code encoding with a non-copyable DEA System encryption key. To use this encoding, the receiver must be set to the same D.A.R.T. mode.

Encoding	Receiver requirements	Security	Led
DIP SWITCH	DIP SWITCH	Weak	
HCS ROLLING CODE	HCS Rolling code (64 bit) - HCS Fix code (32 bit)	Good	
D.A.R.T.	D.A.R.T.	High	
Custom encryption key * (Programmed via NET-BOX)	Programming via NET-BOX or NET-COM	Maximum	 Rolling code D.A.R.T.

*To check if the Key code (custom encryption key) is present on the remote, hold the top button and wait for an orange flash.

DIP SWITCH

HCS Rolling code

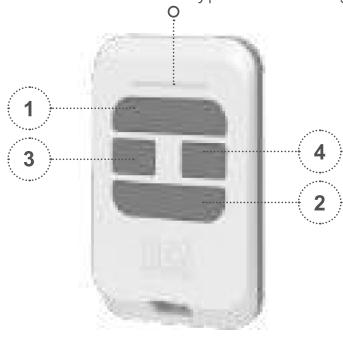

D.A.R.T.

Button order

LED indicator of the type of encoding

LINE-X - LINE-X/L

Outdoor photocell pairs, in mini or standard versions, with a completely new design.

LINE-X/L

cod. 662050

Wall-mounted orientable photocell pair with synchronized operation.
Range 20m

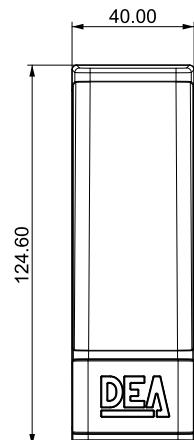

LINE-X/LB

cod. 662051

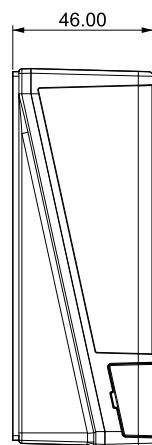

Wall-mounted orientable photocell pair with **battery-powered** transmitter.
Range 7/15m

180° rotation mechanism to ease alignment

Cable entry from the back or underneath with PG option

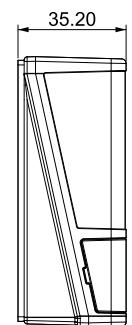

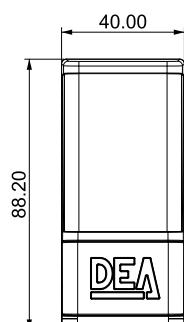

LINE-X

cod. 662081

Mini outdoor photocell pair with synchronized operation.
Max range 20m

LINEAR/SHIELD

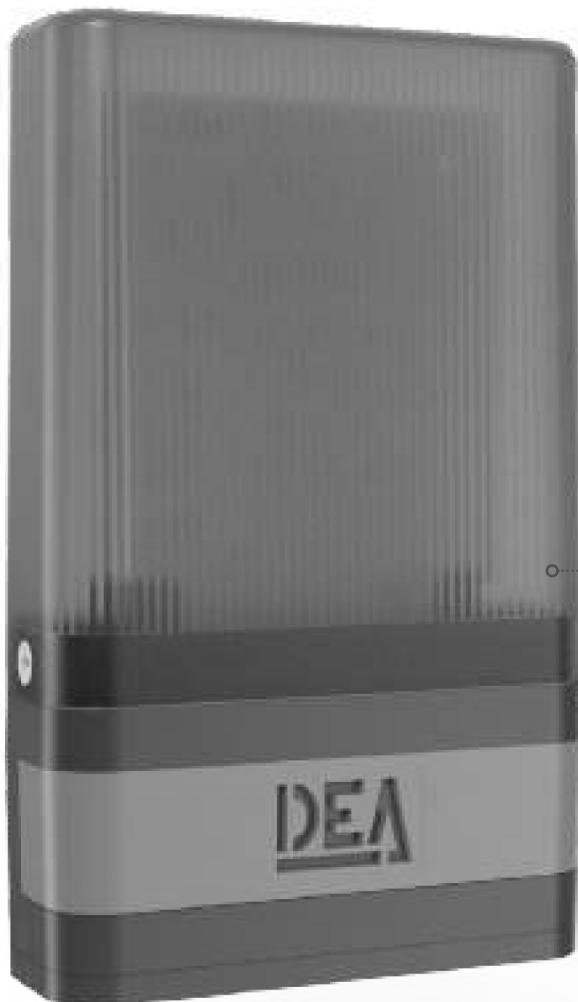

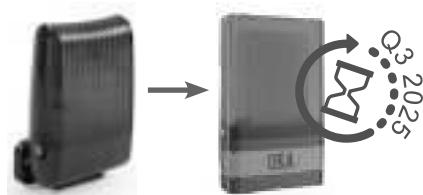

cod. 662047

Orientable photocell pair, LINEAR model, with anti-vandal aluminum protection.

AURA-X

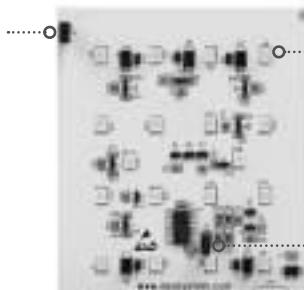

A single flashing light, multi-voltage and multi-frequency, with a renewed design.

cod. 661131

Jumper for frequency selection:

- 433 MHz
- 868 MHz

LED circuit with 18 high-brightness white light points, distributed on both sides

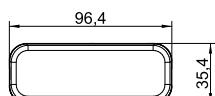

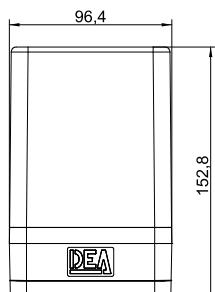

Jumper for selecting fixed or flashing light

Available in two colors:

- smoked white
- smoked yellow

cod. 661132

Installation method:

The rotating bracket allows AURA-X to be installed on both horizontal and vertical surfaces.

New **wired** numeric keypad with NFC reader

NFC technology

Card reader with NFC technology at 13.56 MHz

Memory

Can store up to 2000 codes and cards

The command can be sent via:

- 4 radio channels (433 MHz)
- 2 relay outputs (OUT1 and OUT2)
- UART cable to be connected to the NET control board

NETLINK technology

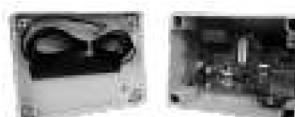

Integrated Bluetooth module for programming and updating via the DEAinstaller app

Vandal protection

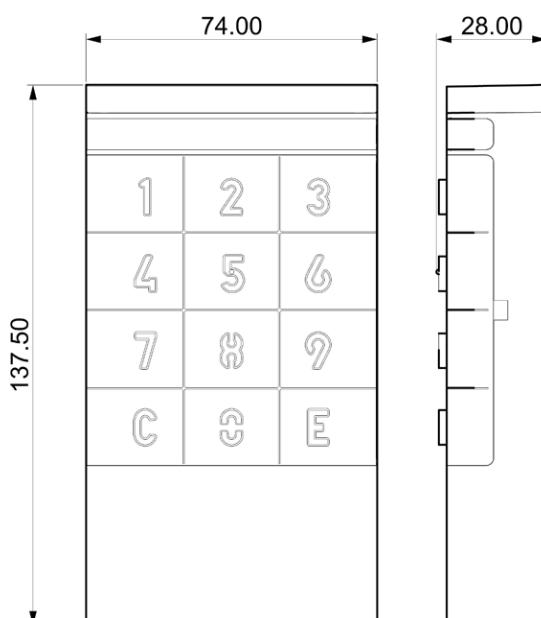

Certified IK09 degree of mechanical resistance, offering excellent protection against impacts or potential external damage. By using the UART cable, command transmission is encrypted, ensuring effective protection against tampering.

Remote management

Possibility to connect to NETCOM for remote device management

Prefer a battery-powered device?

DIGIRAD/N cod. 663320

Radio-only numeric keypad (433 MHz), with 4 channels, powered by 2 CR2450 batteries.

Choose your favourite colour

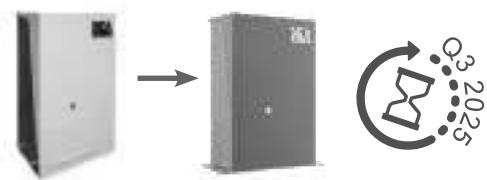

The DIGIRAD/N - DIGILINK keypad can be customised in two optional colours. (DIGICOVER)

DIGICOVER SILVER cod. 679250

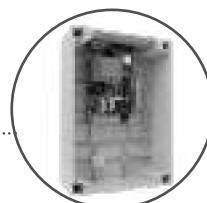

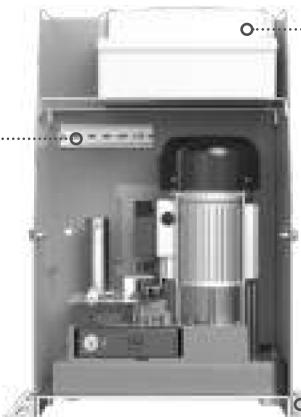

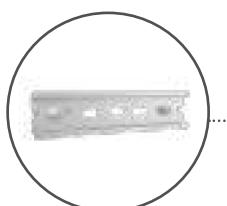

DIGICOVER CORTEN cod. 679251

IRONBOX/XS/N

Anti-vandal painted steel box for REV/IB and GULLIVER/N/IB with mounting plate.
This new version allows quick ground fixing and, thanks to combinable accessories, easily adapts to any configuration.

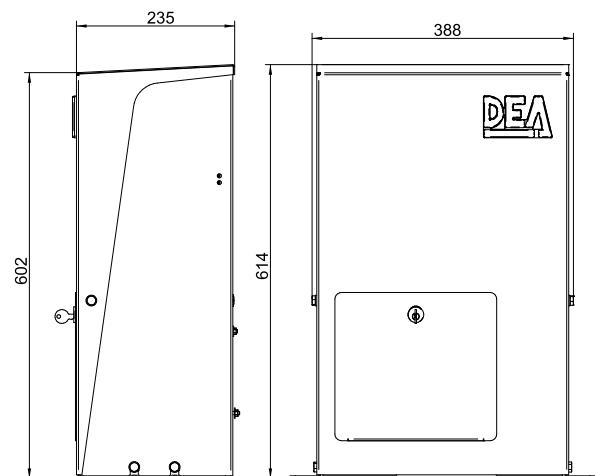

DIN rail for mounting compatible accessories

Control board with box (not included).

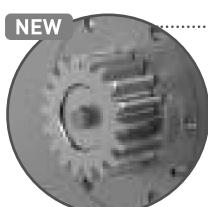

Mounting plate for REV/IB and GULLIVER/N/IB, height 25 mm, with slots outside the housing for easier installation

NEW

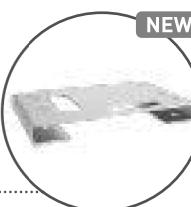

Magnetic limit switch pre-installed on the operator and plastic protection

35 mm pinion and pinion cover already mounted on the operator

Possibility to raise the operator using the additional plate REV-GULLIVER/B IB h=40mm (code 619077)

cod. 619101

Optional compatible accessories

Long pinion

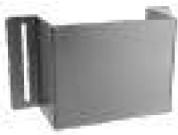

L = 60mm

- Z15/IB REV - cod. 360674
- Z18/IB REV - cod. 360673
- Z18/IB GULLIVER - cod. 360412

FM/IB (cod. 619074)

Cylindrical magnetic limit switch and adjustable plates H=78mm for fixing the magnets

Metal pinion cover

(cod. 619075)

for pinion L = 60mm

REV/GULLIVER/B IB (cod. 619077)

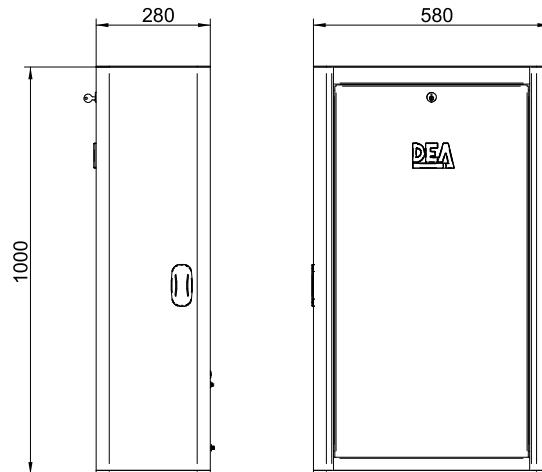

Supplementary plate H = 40mm to raise the motor inside the housing

IRONBOX/N

Vandal-proof painted steel box (RAL 7016) for REV/IB and GULLIVER/N/IB with foundation plate included.

This new version, thanks to an additional plate, allows the motor to be raised 40 mm from the ground and to use both the standard magnetic limit switches (supplied as standard on IB motors) and a cylindrical magnetic limit switch (available as an accessory and to be used with a long pinion L = 60 mm)

Control board with
box (not included)

Foundation plate
h=10mm for REV/IB
and GULLIVER/N/IB

Magnetic limit switch pre-installed on the operator and plastic protection.
35 mm pinion and pinion cover already mounted on the operator

Possibility to raise the operator using the additional plate REV-GULLIVER/B IB h=40mm (code 619077)

IB operators

Operator without control board with:

- pinion L = 35mm
- magnetic limit switch sensor fixed to the operator base
- adjustable plates for magnet mounting

- REV220/IB/M - cod. 616007
- REV220/RF/IB/M - cod. 616008
- REV24/IB/M - cod. 616031

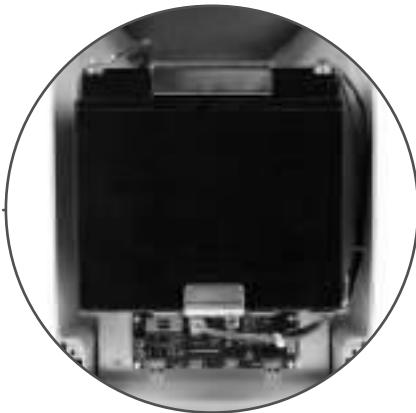

- GULLIVER/N/IB/M - cod. 613606
- GULLIVER/N/3P/IB/M - cod. 613617

GREEN ENERGY-X

cod. 681056

Improved solar power system, to be used in installations with the NET24N control board.

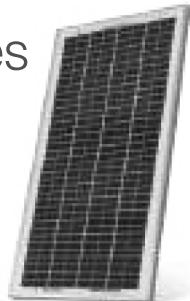

Energy efficiency

Two 18Ah backup batteries and more efficient circuits to control battery charge duration

NEW Power consumption reduction

New circuit, to be connected to the NET24N control unit, that reduces consumption in standby phases and ensures longer battery life in adverse weather conditions

Compatible accessories (not included in the GREEN ENERGY/X)

SOLAR PANEL/XL cod. 681054

Solar panel with 30Wp power, allowing faster recharging

CHARGER/X cod. 681052

External power supply to connect GREEN ENERGY/X to a power socket for additional charging

Range of reversible operators

Why choose a reversible operator?

DEA reversible motors are the ideal choice in situations that require motor release independently from the manual release system, such as:

Condominium complexes

Facilities without pedestrian access and where the motor is in a hard-to-reach position in case of a power outage and the need for manual release

Public buildings
(schools, hospitals)

Facilities subject to regulations on easy access for emergency vehicles

REV

Equipped with a motor with an electromagnetic brake

1400kg

- REV220/RFM - cod. 616004
- REV220/RF/IB - cod. 616006

STING

Operates with 230V relay included with the motor

3,5m - 330kg

- STING/24R - cod. 625060

LOOK

Operates with 230V relay included with the motor

5m - 280kg

- 373R/SC - cod. 627127
- 374R/SC - cod. 627133

OLI/N

Models with different hydraulic release configurations

4,5m - 500kg

- OLI 602AN - cod. 624005
- OLI 602LAN - cod. 624055
- OLI 602N - cod. 624004
- OLI 602LN - cod. 624054

- OLI 604N - cod. 624023
- OLI 604LN - cod. 624043
- OLI 606N - cod. 624043
- OLI 606LN - cod. 624093

- OLI 607AN - cod. 624104
- OLI 607LAN - cod. 624114

Adapter plates

Adapter kits designed for quick replacement of motors from other brands, minimizing masonry work

For residential sliding operators

KIT ADA LIVI MULTIBRAND

cod. 619014

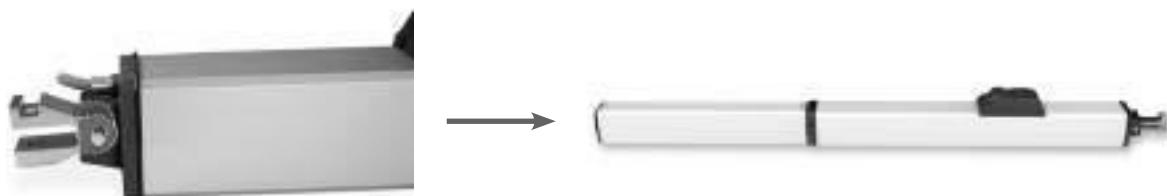

Base for adapting multibrand plates with LIVI/X

For hydraulic swing operators

KIT ADA/FKS

cod. 629400

Adapter kit for OLI/N, for systems with bracket center distance of 960mm and operator stroke of 270mm

For underground swing operators

KIT ADAB - ADA 115/C

cod. 629391 - 629392

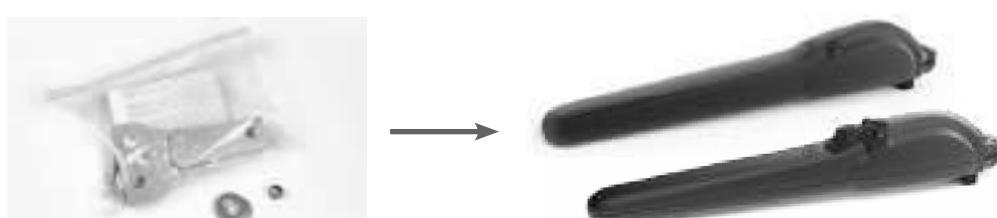

Adapter kit for other foundation boxes, usable with GHOST 100 and GHOST 200

For electromechanical swing operators

KIT ADA MAC-STING/C-300

cod. 629401

Adapter kit for MAC and STING operators with bracket centre distance of 720mm and stroke of 300mm

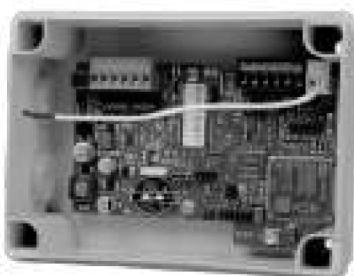

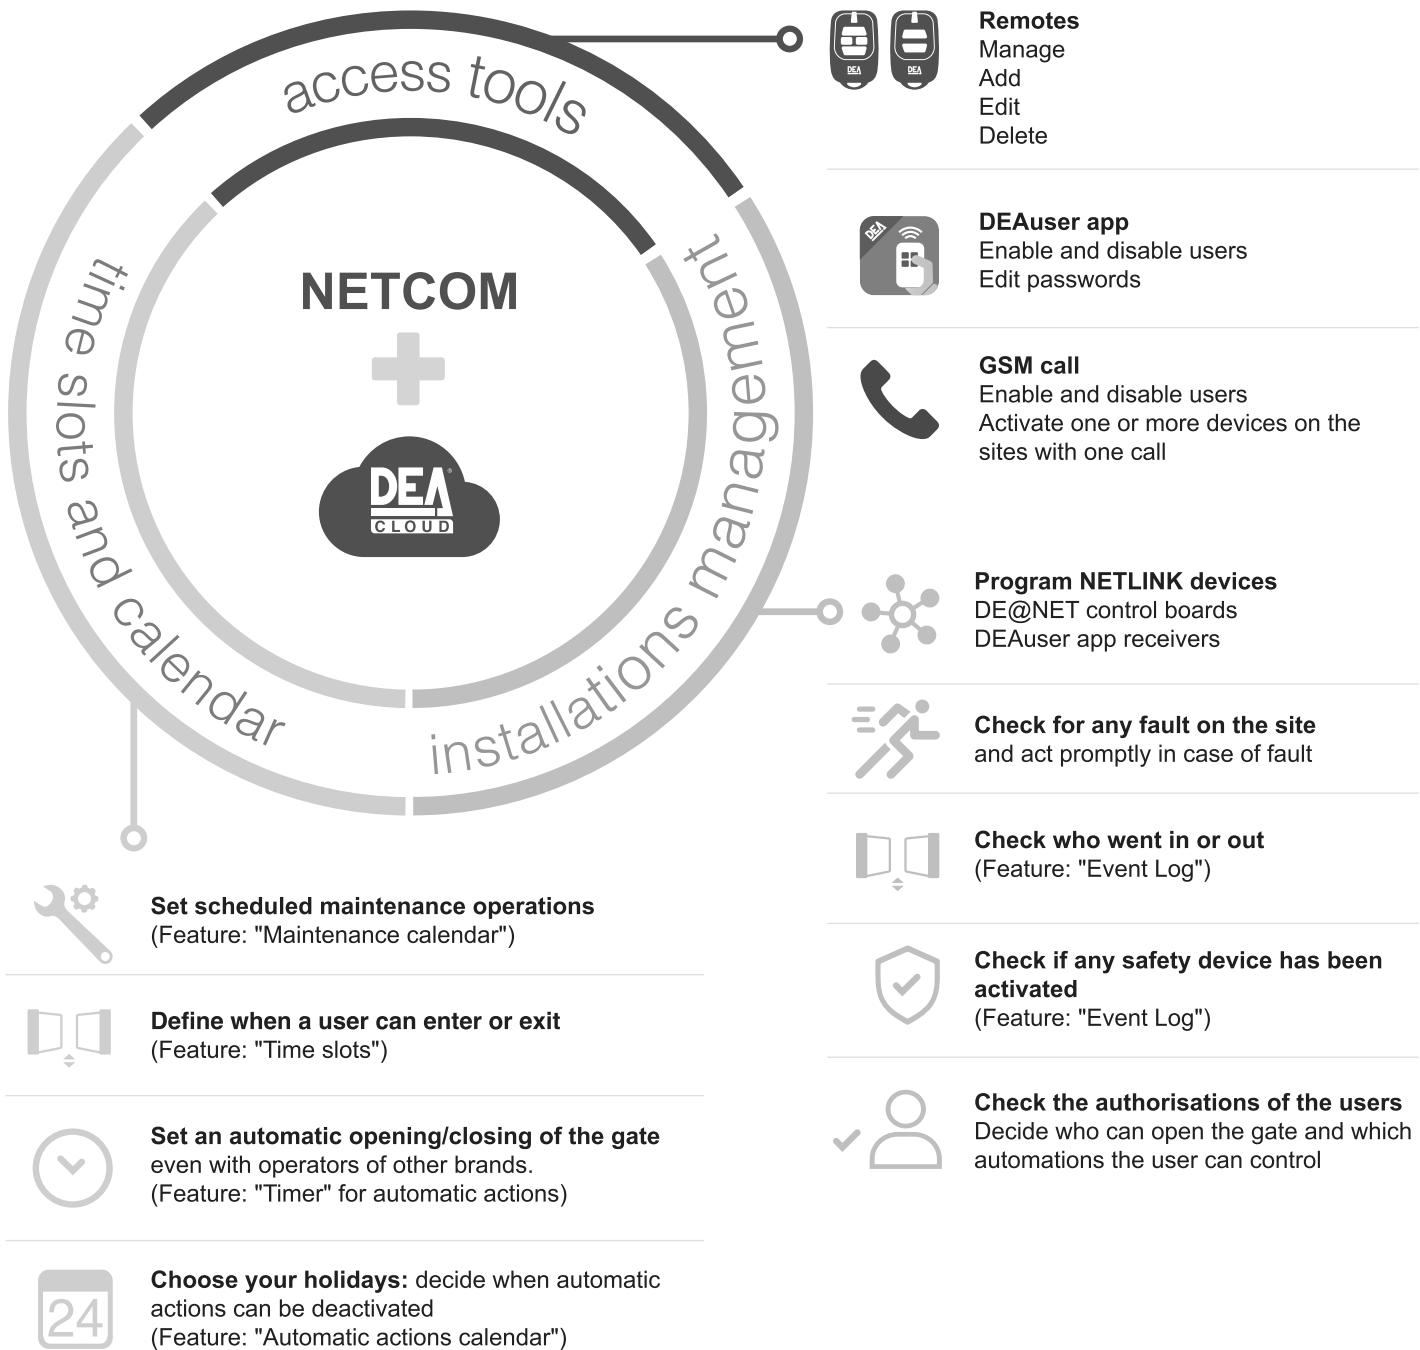

NETCOM

Installation's maintenance and remotes management.

All the functions you need in just one device. From your office.

Remote management

NETCOM is a multi-faceted tool that adapts to different kinds of usage. **Available in 4G**

NETCOM is to be used with DEACloud: the website that allows you to manage all your devices with NETLINK technology.

<https://cloud.deasystem.com>

SLIDING GATES

Automation for residential, collective and industrial sliding gates

LIVI/X

- Up to 900 kg
- 230V / 24V
- Residential use
- Operators with encoder
- Available in fast version, BOOST models (16m/min)

REV

- Up to 1400 kg
- 230V / 24V
- Collective and industrial use
- Operators with encoder, not self-locking version available
- Available in fast version, BOOST models (26m/min)

GULLIVER/N

- Up to 3000 kg
- 230V / 230V 3~
- Industrial use
- Operators with encoder, available with electro-mechanical brake
- Inverter technology with speed control from 12÷20 m/min (only for three-phase versions)

LIVI/X

Automation for residential sliding gates

up to 900 Kg

LIVI/X

Additional protection of the release system for increased reliability. Transparent control unit box with easy opening system

Slotted fixing holes offer greater adjustment during installation, ensuring backward compatibility with previous LIVI models

Design with the possibility of installing an LED strip (optional LED kit)

ABS crankcase for greater weather resistance. Increased degree of protection compared to previous models (IP44)

The LIVI/X is equipped with a magnetic limit switch system, consisting of a high-tech sensor and a set of magnets attached to the multi-adjustable rack

LIVI/X	Opening speed	10 m/min
LIVI/X-BOOST		16 m/min

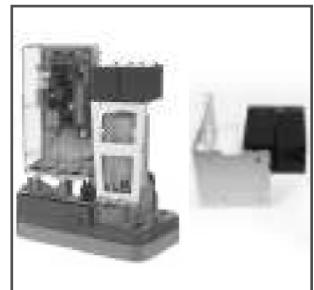

Note: the opening speed could decrease according to the installation characteristics

All our products are made with high quality materials, such as steel and bronze, which guarantee reliability over time.

Compatible with external cable release (item 450N and item BLINDOS - optional), to always have safe access from outside the property

Battery kit with dedicated support (optional for 24V models), to guarantee operation during power outages

230V versions are equipped with a physical encoder for better control and obstacle detection

The DE@NET universal control board makes this operator compatible with the NETLINK System.

NETCOM

Compatible with NETCOM, the device for installation, maintenance and remote management, from your office!

REV

Automation for collective and industrial sliding gates

up to 1400 Kg

REV

Additional fan ventilation (230V versions), with magnetic encoder

Control board positioned in a lifted position at the front. Always accessible and perfect for small or narrow spaces

The REV is equipped with a magnetic limit switch system, consisting of a new technology sensor and a set of magnets attached to the multi-adjustable rack.

**REV24/M
BOOST**

Opening speed

26 m/min

Note: the opening speed could decrease according to the installation characteristics

The DE@NET universal control board makes this operator compatible with NETLINK System.

Compatible with IRONBOX and IRONBOX/XS
vandal-proof box for installations in challenging or industrial environments

Compatible with NETCOM, the device for installation maintenance and remote control management!

GULLIVER/N

Automation for industrial sliding gates

up to 3000 Kg

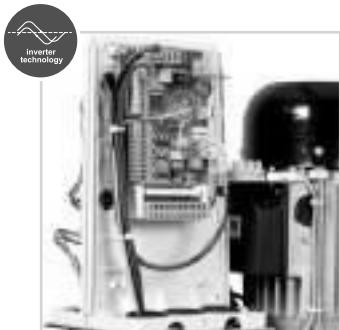

GULLIVER/N

Operator with encoder technology and forced ventilation for intensive use

Easy depth adjustment and compatibility even on old installations with GULLIVER

More speed and more control thanks to the NET230-EVO-I control board with integrated inverter technology.

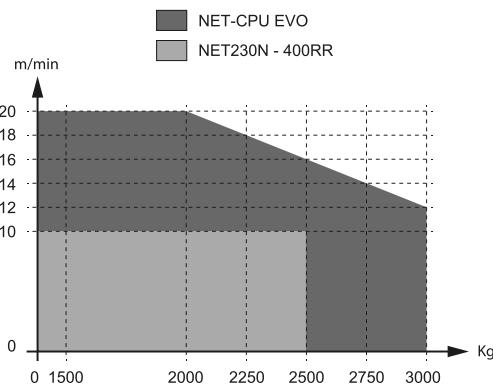

Magnetic limit switch

DIN rail for accessory mounting (only on GULLIVER/N/M and GULLIVER/N/400/3P/M)

Maximum speed scheme

Compatible with IRONBOX
vandal-proof box for
installations in challenging or
industrial environments

Front control board, with transparent cover and visible display, with stand that can rotate up to 120°.

Metal mechanics and steel and bronze gears for maximum performance and durability

The integrated DE@NET control board makes this operator compatible with the NETLINK system. Also compatible with NETCOM. See p.16 for more information

SWING GATES

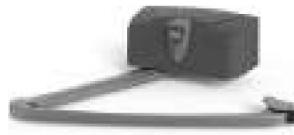

Choose the automation for your swing gate

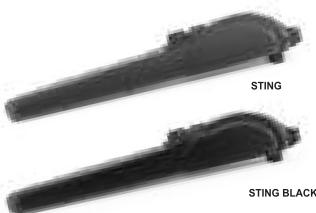

MAC

- Up to 3m - 400kg
- 230V / 24V
- For residential and semi-intensive use

LIVI 502

- Up to 4,5m - 400kg
- 230V / 24V
- Residential and semi-intensive use
- Available versions with articulated or sliding arm

STING

- Up to 3,5m - 400kg
- 230V / 24V
- For residential and semi-intensive use
- Available versions with encoder
- Available in fast version, BOOST models (90° ~ 9s)
- Available in a reversible version

ANGOLO

- up to 2,3m - 200kg
- 24V
- Residential use
- Available versions with articulated or sliding arm

LOOK

- Up to 5m - 280Kg
- 230V / 24V
- Residential and semi-intensive use
- Available versions with encoder and limit switches
- Available in a reversible version

GHOST 100

- Up to 3,5m - 400kg
- 230V / 24V
- Residential and semi-intensive use
- Available versions with encoder
- Compatible with other foundation boxes of other brands

OLI/N

- Up to 4,5m - 500kg
- 230V
- Intensive use
- Not self-locking version available or with blocks in opening-closing

GHOST 200

- Up to 4m - 400kg
- 230V / 24V
- Semi-intensive and intensive use

GEKO/X

- Up to 3m - 250kg
- 24V
- Residential use
- Available versions with articulated or sliding arm

GUIDE TO USE

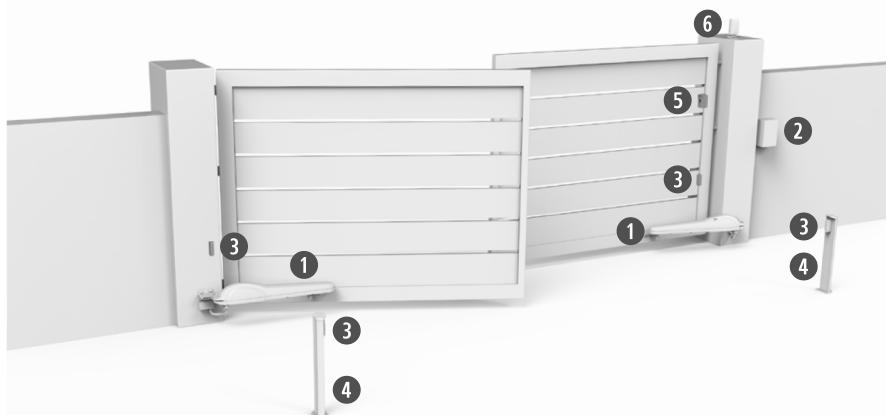

■ = MAC - MAC/24
■ = MAC/24/E

If the leaf length is bigger than 2m or if you use reversible models you must install the electric-lock to block the gate in closed position. The height and the leaf structure, as well as the presence of strong wind, can cause the reduction of the value of the data contained in table or make it necessary to use an electric lock also for leaves shorter than 2m.

GUIDE TO USE

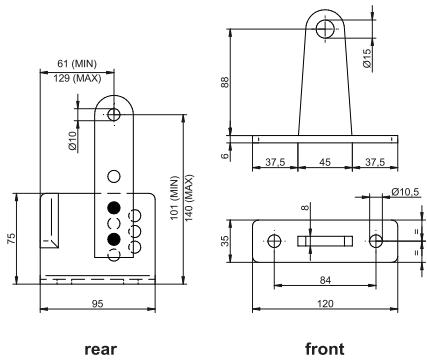

■ = STING - STING/24 - STING/EN

■ = STING/24/R

■ = STING/24-BOOST

If the leaf length is bigger than 2m or if you use reversible models you must install the electric lock to block the gate in closed position. The height and the leaf structure, as well as the presence of strong wind, can cause the reduction of the value of the data contained in table or make it necessary to use an electric lock also for leaves shorter than 2m.

LOOK

Electromechanical automation for swing gates

up to 5 m - 280 kg

LOOK

Stainless steel telescopic piston that guarantees high resistance against corrosion

The version with encoder guarantees high performance and safety in movement

Unlocking device with plastic key in case of power failure

2 lengths available:
• with 320mm shaft for gates up to 3m long
• with 520mm stem for gates up to 5m in length

Optional rod cover to protect the telescopic rod and give a more linear aesthetic

The DE@NET external universal control board makes this operator compatible with NETLINK System.

Compatible with NETCOM, the device for installation maintenance and remote control management!

OLI/N

Hydraulic automation for swing gates

up to 4,5 m - 500 kg

OLI/N

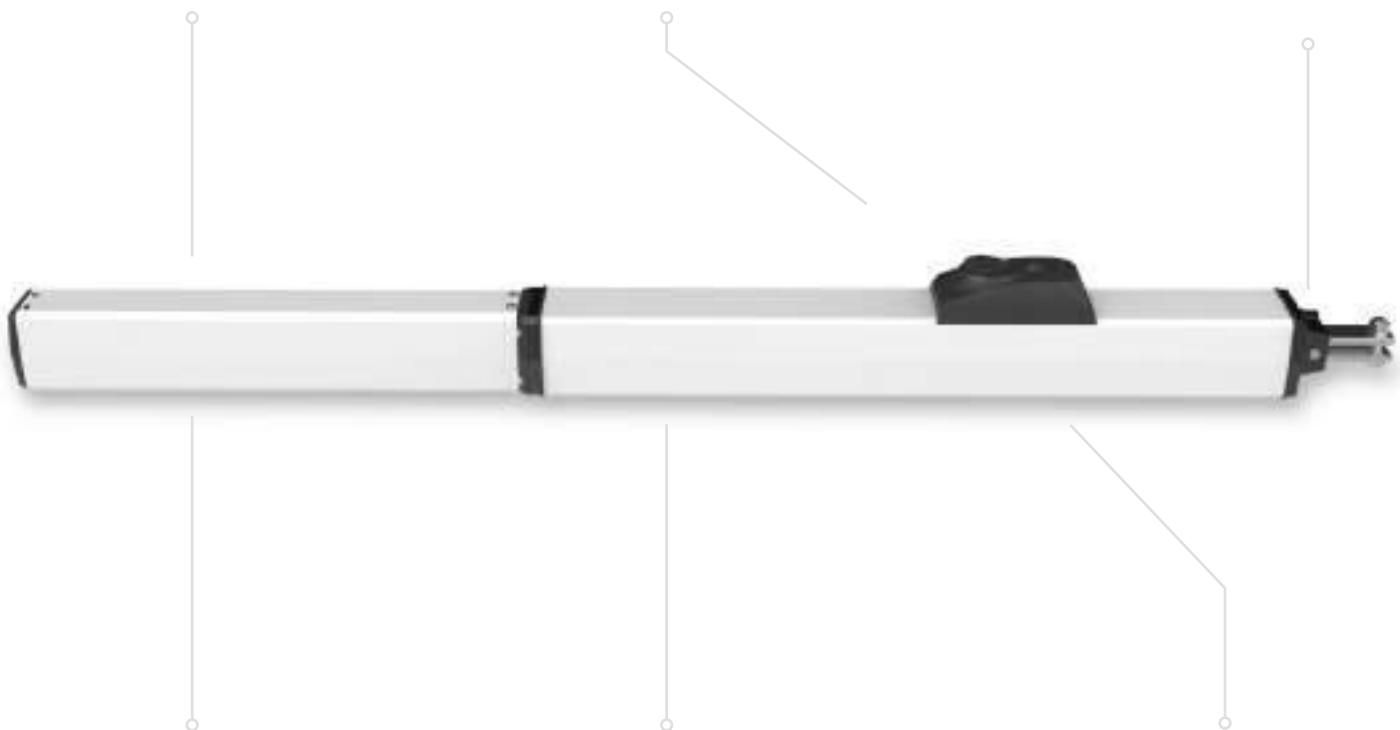

Wide range of models with:

- locking in opening and/or closing
- reversible or slow models for any kind of installation need

Quick release with customised metal key, protected from the weather.

Fixing plates to be welded as standard. Greater installation versatility thanks to the optional adjustable fixing plates (art. OLI/SFR).

Available in short version (useful stroke 270mm) or long version (useful stroke 400mm)

The DE@NET external universal control board makes this operator compatible with NETLINK System.

Compatible with NETCOM, the device for installation maintenance and remote control management!

GEKO/X

Electromechanical automation for swing gates

up to 3 m - 250 kg

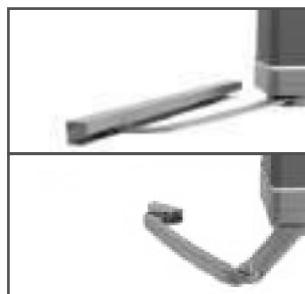

GEKO/X

Protection of the release system and control board, for greater reliability over time.

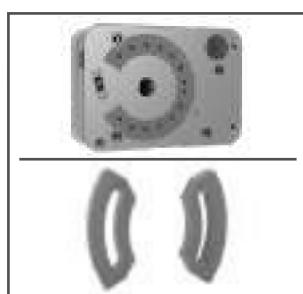

Gearbox that increases opening speed by 30% compared to previous models

Rechargeable battery kit, with fixing bracket, to be installed inside the operator

Design with the option of installing an LED strip (optional LED kit)

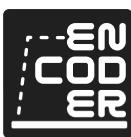

Mechanical stops, with more fixing points and improved precision

Gearbox made with high quality materials, such as steel and bronze, which guarantee reliability over time.

24V operator with encoder technology for improved obstacle detection accuracy

Slide rail (optional) that allows you to avoid lateral obstructions

Compatible with external cable release (art. GEKO/SF and art. BLINDOS - optional), keyed manual release from the outside of the property

Optional KITCLIMB part allows you to install on a slope with a gradient up to 12 degrees.

The integrated DE@NET control board makes this operator compatible with the NETLINK system. Also compatible with NETCOM.

GUIDE TO USE

■ = GEKO/X/BS
■ = GEKO/X/BA

If the leaf length is bigger than 1,5 metres or if you use reversible models you must install the electric-lock to block the gate in closed position. The height and the leaf structure, as well as the presence of strong wind, can cause the reduction of the value of the data contained in table.

ARTICULATED ARMS

EXAMPLE OF A TYPICAL INSTALLATION

The new LINE-X, AURA-X, and GTX accessories will be shipped once the current models are out of stock

KIT LIVI 500

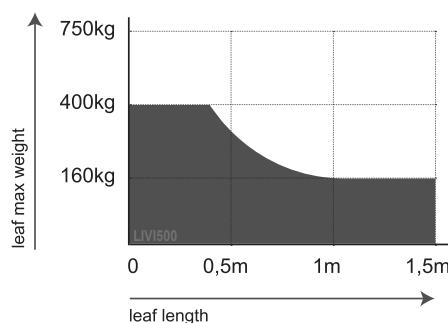

Electromechanic automation of a pedestrian gate

Guide to use

SLIDING ARM

The electric-lock must be fitted to block the gate in closed position. The height and the leaf structure, as well as the presence of strong wind, may cause the reduction of the value of the data contained in table.

GHOST 100

Electromechanical underground automation for swing gates

up to 3,5 m - 400 kg

GHOST 100

Leaf opening up to 180° with art. 116GN

The operator is supplied with 8m power cable to facilitate the electrical connection to the control panel

Operator body compatible with foundation box of other brands

The one-piece aluminum operator body guarantees maximum watertight integrity

The standard foundation box with cataphoresis treatment guarantees excellent resistance to atmospheric agents. Stainless steel case also available for high salinity conditions

Built-in mechanical stops as standard to eliminate the need for floor stops

The DE@NET external universal control board make this operator compatible with the NETLINK system.

NETCOM

Compatible with NETCOM, the device for installation maintenance and remote control management

ADVANCE/N

Automation for sectional and counterweight spring doors

up to 16m²

ADVANCE/N

Separate control board from the operator to be installed on the wall. Programming is easier and the open / stop / close buttons are close at hand.

This operator is compatible with the NETLINK System.

NET724EVO, the control board with:

- **EASY** and **PRO** navigation menus
- improved management of the stroke
- force tracking with **EVO TRACK** technology

Quick opening (**up to 19cm/s**) and very silent, thanks to the steel track with belt

The belt is reinforced with internal iron filaments to ensure silence and durability over time.

Track available in sizes:
• 3200 mm (art. AB16)
• 4000 mm (art. AB20).

The easy-to-assemble two-piece rail makes transport easier.

Two-channel encoder technology that ensures maximum precision and safety during opening and closing

LATO

Automations for industrial sectional doors

up to 35m²

LATO

Quick installation, with the possibility of direct attachment on the spring holder axis or with 2:1 chain reduction to increase the capacity

Available with and without control unit. The version with integrated control unit ensures a compact installation.

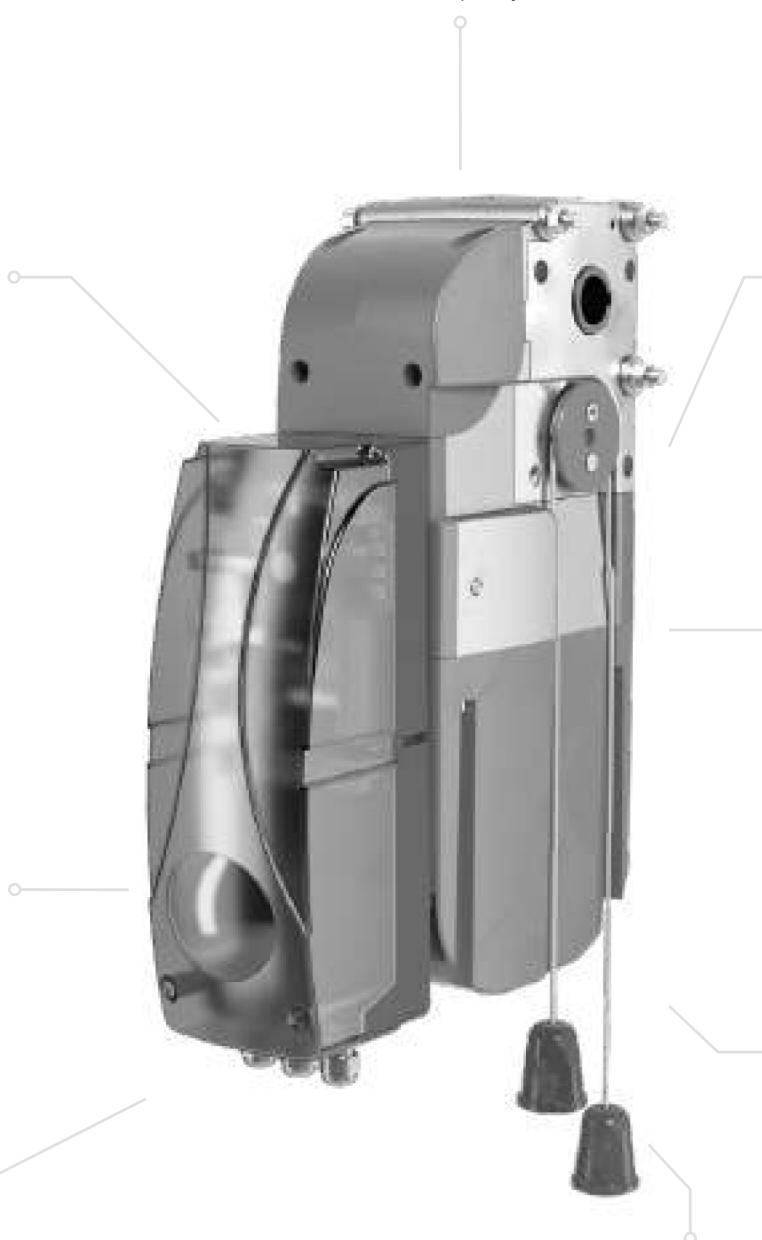

Available in single-phase 230V and three-phase 400V

The wall control board enclosure (art. 100GP) facilitates programming and has an Open / Close / Stop push button

Available with and without chain. The chain version ensures manual opening during power outage.

Encoder technology with micro-switch limit switches that ensures maximum precision and safety during opening and closing

The DE@NET universal control board make this operator compatible with NETLINK System.

NETCOM

Compatible with NETCOM, the device for installation maintenance and remote control management!

ELECTROMECHANICAL BARRIER AND BOLLARD FOR VEHICLE PASSAGE

Choose the barrier or the bollard suitable for your entrance:

PASS/N

- Up to 5m of boom length
- 24V
- Residential and collective use
- Fast version available
- Up to 290 manoeuvres per hour
800 manoeuvres per day

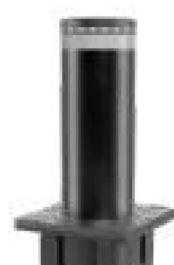

STOP/N

- Up to 8m of boom length
- 230V / 24V
- Semi-intensive and intensive use
- Fast version available
- Up to 500 manoeuvres per hour
5500 manoeuvres per day

TRAFIK/N

- Up to 6m of boom length
- 230V
- For continuous use
- Controlled by inverter
- Up to 15000 manoeuvres per day

ROCK

- height 700 mm
- Diameter 274 mm
- Cataphoresis treatment
- 230V
- Intensive use

SELECTION GUIDE FOR ELECTROMECHANICAL BARRIER

Choose the maximum boom length

3m	PASS24NET/N/V	24V	2,2"	800	✓	
4m	PASS24NET/N/VR	24V	2,8"	800	✓

EXAMPLE OF A TYPICAL INSTALLATION

The new LINE-X/L, AURA-X, and GTX accessories will be shipped once the current models are out of stock

STOP/N

Electromechanical barrier

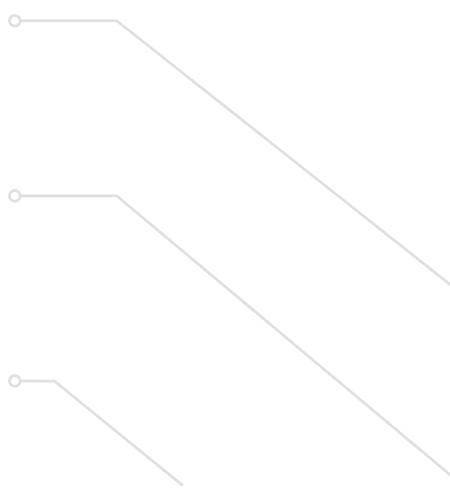

up to 8m of boom length

STOP/N

Steel, cataphoresis, RAL 7016
grey, powder paint, textured
finish

Control panel under the top cover for
easier programming

The encoder technology guarantees
high performance and safety in
movement

4m or 6m boom with the option of
combining two booms through art.
BOOM-LINK to obtain a maximum
length of 8m

Identify between the closing position
(red LED) and the opening position
(green LED). *

The metal mechanics with machined
steel gears guarantee reliability and
durability over time

If you have accessories installed on the
rod you can find the right balances by
adding or removing springs from the
inner plate (KITMOLLA)

The DE@NET universal control
board makes this operator
compatible with the NETLINK
System.

Compatible with NETCOM,
the device for installation,
maintenance and remote
management, from your office!

The standard
electromechanical limit
switches give precision in
adjusting the opening and
closing position

* For this functionality, either art. NET-EXPANSION or art. NET-EXPANSION MINI is required.

EXAMPLE OF A TYPICAL INSTALLATION

The new LINE-X/L, AURA-X, and GTX accessories will be shipped once the current models are out of stock

TRAFIK/N

The electromechanical road barrier, rated for continuous usage and perfect for heavy traffic!

Up to 6m of boom length

TRAFIK/N

Possibility of installation in rooms with low ceiling thanks to the accessory art. ART-TRAFIK

Flexible and quick during installation thanks to the double output of the shaft which allows you to install the rod in both sides

Easy adjustment of the closing and opening position thanks to the electromechanical limit switches

Possibility of installing an additional limit switch to signal the status of the barrier

Full access to internal mechanical and electronical components thanks to the presence of two doors and a removable cover

Suitable for locations with heavy traffic, such as car parks, commercial areas, industrial sites
Passage width up to 6m
Opening speed max. 1,5"

Operator in oil bath to ensure longer life

High resistance to corrosion with the case with cataphoresis treatment and polyester powder coating

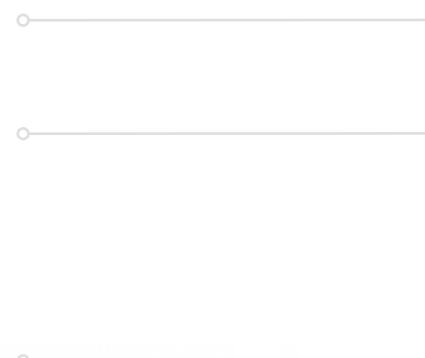

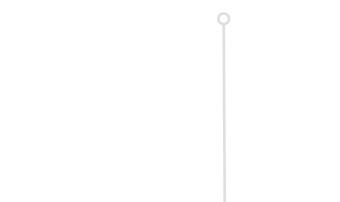

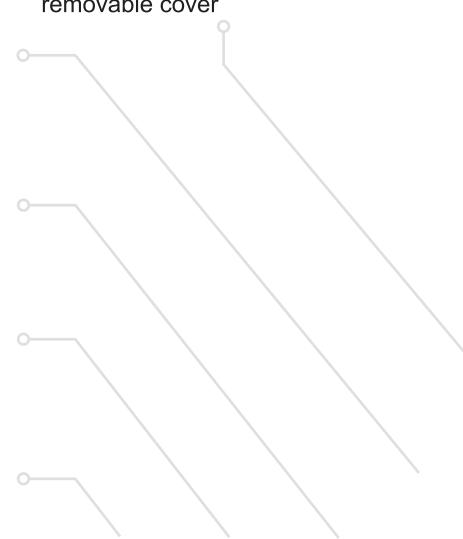

The DE@NET universal control board makes this operator compatible with NETLINK System.

Compatible with NETCOM, the device for installation maintenance and remote control management!

RGB LED, multifunction (flashing or fixed) - optional*

DEA

DEA

The combination of inverter technology and encoder guarantees greater control, smoothness and safety in movement

* For this functionality it is necessary to purchase separately art. NET-EXPANSION or art. NET-EXPANSION MINI

ROCK

Hydraulic retractable bollard

height 700 mm

ROCK

Hydraulic pump integrated in the top section, to assist with maintenance activites

High visibility thanks to the reflective band and the diffuser with red LED

Removable structure with double anti-corrosion treatment: cataphoresis and thermal painting black polyester

The DE@NET universal control board makes this operator compatible with NETLINK System.

Compatible with NETCOM, the device for installation maintenance and remote control management!

Linear guide system with chrome-plated steel cylinders

Suitable for intensive usage thanks to the hydraulic circuit power.

The version with cable simplifies the wiring phase and ensures watertight integrity

ROCK OPERATORS

COD.	Art.										OTHER CHARACTERISTICS
651001	ROCK/CABLE	230V	274 mm	700 mm	6 mm	M	1	€ 6.510,00			<ul style="list-style-type: none"> • Removable structure, cataphoresis treatment • Emergency manual release • LED diffusers with integrated buzzers • 2 magnetic limit switches • Walking surfaces in aluminium, cataphoresis, micaceous grey • Retro-reflecting film with high-luminous efficacy • 15m cable (only for art. ROCK/CABLE) • Framework with cataphoresis treatment to be cemented (art. ROCK/B) not included • Colour: NERO SIDERALE PERL

651020	ROCK/F	FIXED VERSION	274 mm	700 mm	4 mm		1	€ 1.226,00			<ul style="list-style-type: none"> • Fixed bollard with cataphoresis treatment • Retro-reflecting film with high-luminous efficacy

ROCK/CABLE: framework art. ROCK/B not included

ROCK/F: supplied without led light and base cover

ROCK/CABLE/EL: Electrovalve art. ROCK/EL V2 included for quick descent in case of power failure

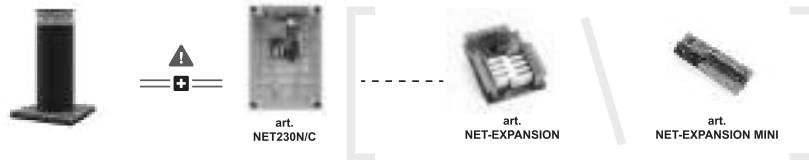

TECHNICAL INFO	ROCK/CABLE	ROCK/CABLE/EL
Movement	Hydraulic	
Height	700mm	
Diameter	Ø274mm (±2mm)	
Material	Steel Fe 360	
Treatment	Cataphoresis and polyester powder paint, black	
Ascent time	6 sec	
Descent time	5 sec	
Quick descent time (with solenoid valve and power failure)	1,5 sec	
Usage	Intensive	
Reflective band	50mm	
Emergency manual manoeuvre	Mechanical unlocking on hydraulic circuit	
Impact resistance	29KJ with clamps ; 40KJ with armor reinforcement	
Crash resistance	29KJ with clamps ; 138KJ with armor reinforcement	
Cable for connection	15 m FG16 7x1,5 + 10x0,5	
Operating temperature	-15°C + 50°C -25°C + 50°C with heater	
Obstacle detection	Adjustable pressure switch	
Product weight	130 kg	
Hydraulic pump	Power supply 230V+-10% 50/60 Hz	
Power absorption	400 W	420 W
Protection level	IP67	
Capacitor	12,5 µF	
Motor thermal protection	130°C

EXAMPLE OF A TYPICAL INSTALLATION

DIMENSIONS

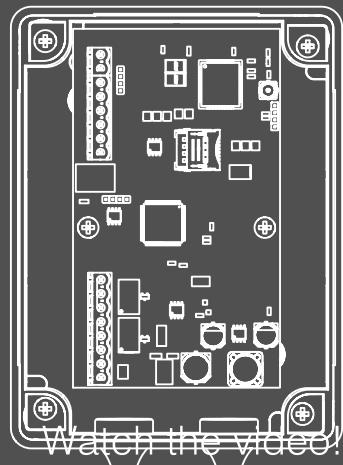

EXAMPLE OF A TYPICAL INSTALLATION

NETLINK devices and accessories

All our operators with NETLINK technology are compatible with **NETCOM**, the device to **remotely manage your installations**, diagnose faults and **manage remotes**.

From the comfort of your office by GSM.

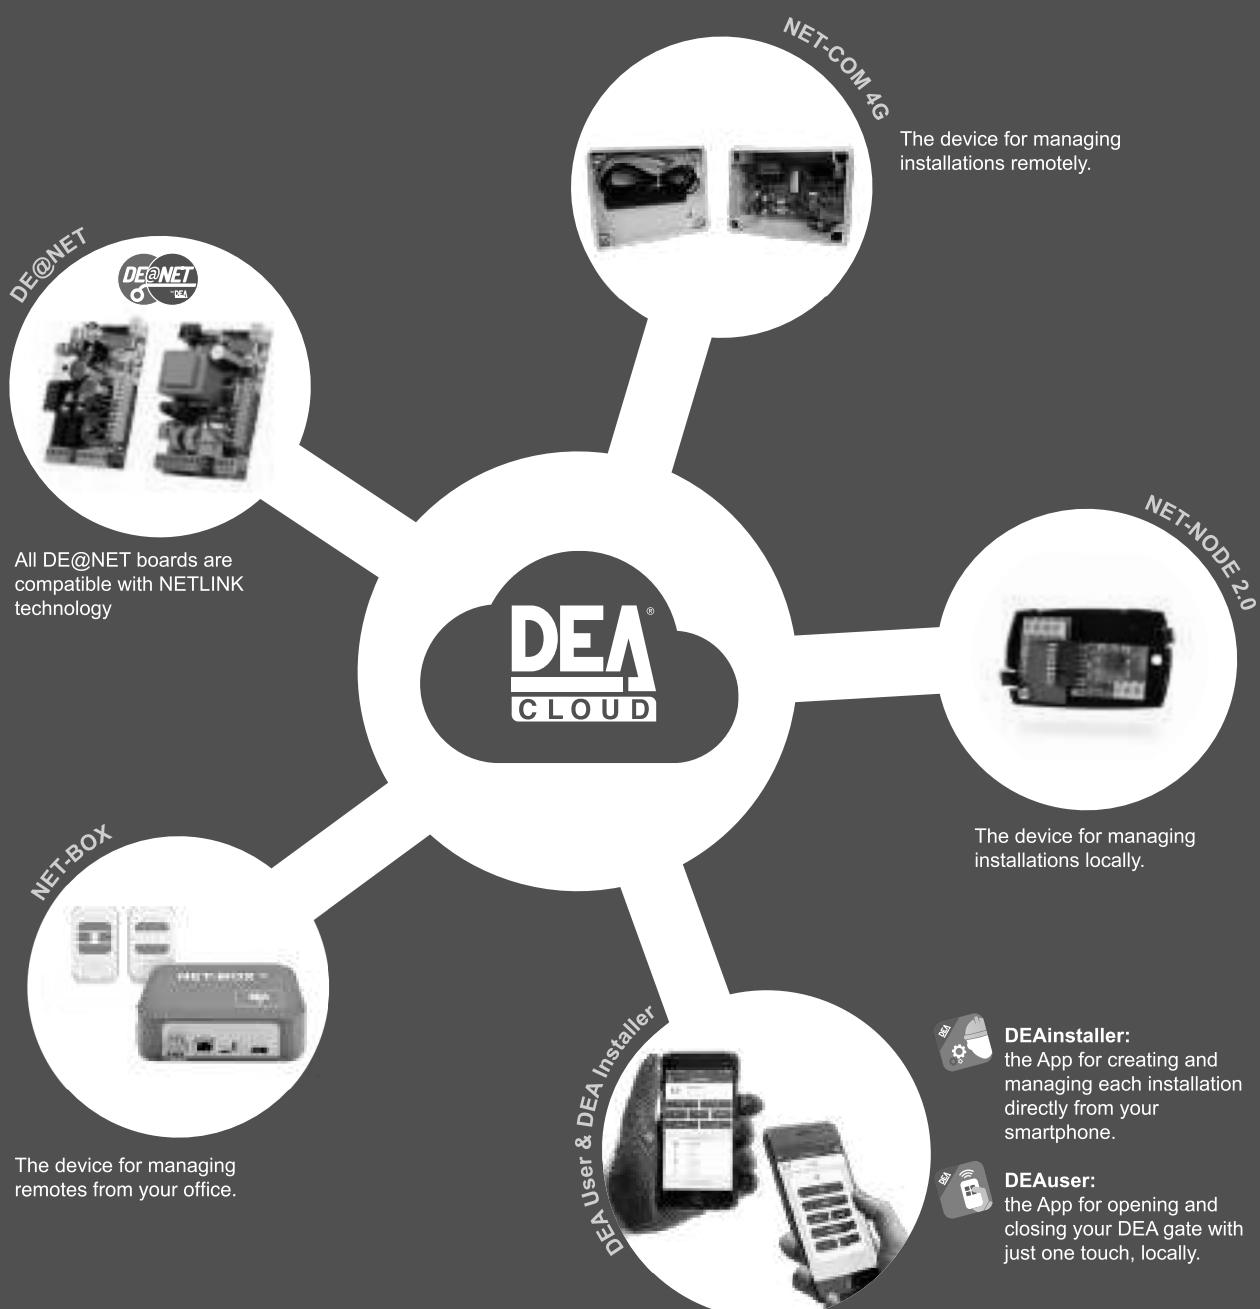

Watch the video!

NETLINK

is our technology applied to DEA devices for
the smart management of your installations,
both locally and remotely.

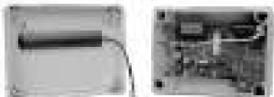

NET-COM

It's the device for the Installation's maintenance and remotes management, from your office!

- It can be used as a "TIMER" with the management of **calendar time slots**
- it can memorise up to **1,500 remotes**.

Features:

- modem
- 433 MHz radio receiver
- 2 programmable inputs and outputs
- archive memory up to 150,000 logs
- battery for keeping the clock up in case of power failure

	COD.	Art.			€	x1
	679120	NET-COM/4G	Device with 4G modem, supplied without a SIM (M2M) Possibility of using a SIM supplied by other operators Antenna included.		1	€ 394,00
			External power supply unit required art. POWER SUPPLY 840mA cod.163523			
	679119	4G-EXP	4G module to be used to transform a NET-COM 2G into 4G (plug-in circuit)		1	€ 200,00

SIM plan and accessories

	179010	SIM BASE	SIM (Machine to Machine - M2M) with 5-year BASE plan (max. 2MB/month) for use with NETCOM. ATTENTION: not compatible with DEAuser <u>See table on p.17 to discover all the functionalities of this board</u>		1	€ 268,00
	179011	SIM PRO	SIM (Machine to Machine - M2M) with 5 year PRO plan (max. 10MB/month) for use with NETCOM. Compatible with DEAuser <u>See table on p.17 to discover all the functionalities of this board</u>		1	€ 335,00
	679122	SIM BASE / PRO RENEWALL	Card for SIM renewal: +60 months SIM BASE +48 months SIM PRO		1	€ 168,00
	163523	POWER SUPPLY 840mA	Power supply 24V - 20W. For more information, see the table on p.128		1	€ 55,00

ANTENNA GSM-LTE

	179009	ANTENNA GSM-LTE	GSM-LTE outdoor antenna to increase the range signal. Cable= 2 m	1	€ 66,00
	677650	S-EXTENDER	Control board to extend from 3m up to 50m the range of the wiring between NET-COM and other NETLINK devices (such as control boards DE@NET and receivers).	1	€ 55,00
	679118	LAN-EXP	Plug-in module to connect the LAN cable to NETCOM	1	€ 55,00

NET-BOX

NET-BOX

COD.	Art.			€ x1
	679112	NET-BOX	NET-BOX is the DEA tool that allows you to customise the DEA remotes. Note: 1 pc art. GT-CABLE included	1 € 490,00
	470351	GT-CABLE	Cable to be used with NETBOX for programming compatible remotes	1 € 75,00

GT CABLE

NET-NODE

NET-NODE 2.0

COD.	Art.			€ x1
	677642	NET-NODE 2.0	Updated version of NET-NODE. Device to be connected to DE@NET control boards and to external receivers. Thanks to NET-NODE you can use the DEAinstaller and DEAuser apps on your smartphone. It is compatible only with DE@NET control board equipped with serial gate and NETLINK technology.	1 € 157,00
	397227	NET-CABLE	Cable to connect NET-NODE and NET-BOX with NET control boards and receivers, L= 500 mm	1 € 15,00
	679113	PREMIUM CARD	Card with serial code to upgrade your account to "Premium". It allows you to share the data of the installations with max 10 smartphones.	1 **€ 35,00** (net price)

NFC technology

Card reader with NFC technology at 13.56 MHz

Memory

Can store up to 2000 codes and cards

The command can be sent via:

- 4 radio channels (433 MHz)
- 2 relay outputs (OUT1 and OUT2)
- UART cable to be connected to the NET control board

NETLINK technology

Integrated Bluetooth module for programming and updating via the DEAinstaller app

Vandal protection

Certified IK09 degree of mechanical resistance, offering excellent protection against impacts or potential external damage. By using the UART cable, command transmission is encrypted, ensuring effective protection against tampering.

Remote management

Possibility to connect to NETCOM for remote device management

COD.	Art.					
NEW - Q3 2025	663330	DIGILINK	Wired numeric keypad with NFC reader, 13.56 MHz, capable of storing up to 2,000 codes and cards. 2 relay outputs, UART cable, 4 radio channels with a frequency of 433.92 MHz with selectable Rolling Code encoding, Dip Switch and D.A.R.T. Painted composite material for high UV resistance. Integrated Bluetooth module for programming and updating via DEAinstaller app, with the possibility of connection to NETCOM.	60	€ 212,00

CONTROL BOARDS RANGE EVO

	COD.	Art.			€ x1
			Control module (mounted on GULLIVER/N and TRAFIK/N) programmable via display, powered at 24V (accessory art. POWER SUPPLY 2A not included), manages 1 or 2 power modules with NET-M230-I inverter.		
NET-CPU-EVO Compatible with NETCOM	677660	NET-CPU EVO	Built-in 433MHz radio receiver with possibility of storing up to 200 radio commands. Possibility of adjusting more than 150 parameters.	1	€ 240,00
			12 programmable inputs with 4 COM terminals, 4 non-powered relay outputs with max. capacity 6A / 250V-AC / 30V-DC, 5 programmable 24V outputs and 1 24V output for accessories max. 1A.		
NET-M230-I	677661	NET-M230-I	Compatible with NETLINK system to connect NET-NODE, for local management, and NET-COM, for remote management. <u>Only electronic circuit.</u>	1	€ 309,00
			NET-CPU-EVO board with power supply unit art. POWER SUPPLY 2A and power module art. NET-M230-I mounted on box art. 100GR	1	€ 675,00
NET24 EVO Compatible with NETCOM	677662	NET230EVO-I/C	NET-CPU-EVO board with POWER SUPPLY 2A power supply unit and power module art. NET-M230-I mounted on a plate with trunking and DIN rail for use with STEELBOX	1	€ 846,00
	677663	NET230EVO-I-PROBOX			
	678301	NET724 EVO	Control board for SPACE/N / ADVANCE/N and for LIVI 4/24X/M operators (without box, circuit only)	1	€ 169,00

CONTROL BOARDS RANGE DE@NET

	COD.	Art.			€ x1
			Universal digital control board with box (100G) for 1 or 2 operators 230V AC, with or without magnetic encoder.		
NET230N/C Compatible with NETCOM	677610	NET230N/C	Selection in a single step of the type of operator used (sliding, swing, counterweight door, barrier, sectional door, bollard), with automatic configuration all inputs/outputs and best operating options. Factory configured as a swing.	1	€ 267,00
			Possibility of adjustment of 99 operating parametres such as strength, speed and duration of the slowdown, anti-crush sensor sensitivity, possibility of blocking the programming to prevent tampering of the installation, type of operation of each input etc.		
NET230N/PROBOX Compatible with NETCOM	677600	NET230N	Simplified learning procedure. 433 MHz radio receiver for up to 100 remote controls (fixed or rolling code coding). (182xh267x98mm)	20	€ 246,00
	677611	NET230N/PRO-BOX	NET230 control board mounted on plate with cable holders and DIN rail to use on art. STEELBOX	1	€ 377,00

NET24N/C

NETCOM

NET24N/PROBOX

Compatible with
NETCOM

678261	NET24N/C	Universal digital control board with box (100GR) for 1 or 2 operators, 24V DC, with or without magnetic encoder. Selection in a single step of the type of operator used (sliding, swing, counterweight door, barrier, sectional door, bollard), with automatic configuration all inputs/outputs and best operating options. Factory configured as a swing.	1	€ 378,00
		Possibility of adjustment of 99 operating parametres such as strength, speed and duration of the slowdown, anti-crush sensor sensitivity, possibility of blocking the programming to prevent tampering of the installation, type of operation of each input etc.		
		Simplified learning procedure. 433 MHz radio receiver for up to 100 remote controls (fixed or rolling code coding). (182xh267x137mm)		
678263	NET24N/C250	NET24N with 250W transformer for use with REV operators ready for IRON BOX	1	€ 426,00
678251	NET24N	Circuit only	20	€ 309,00
678264	NET24N/ PROBOX	NET24N control board with transformer mounted on plate with cable holders and DIN rail to use on art. STEELBOX	1	€ 543,00

EXPANSION BOARDS

NET-EXPANSION

NET-EXPANSION MINI

485/EXP/MASTER SLAVE

OUTPUT EXP 24V

COD.	Art.				
677620	NET- EXPANSION	Expansion board 6 inputs - 8 outputs for control boards NET Series. New features can be activated in the NET control board including: analog or resistive inputs, traffic light control, compass control, alarm contact with automatic closing when the power failure, open gate warning light with variable frequency in opening/closing (cable length 300mm + spacers). Compatible only with DE@NET boards with serial port (NET230N and NET24N from the version 30, NET724 EVO).	1	€ 175,00	
677622	NET- EXPANSION MINI	Mini expansion board, 4 resistive input and 1 NC-NO output, compatible only with NET24N and NET230N	1	€ 94,00	
677621	NET- EXPANSION/C	NET-EXPANSION expansion board with box and 1000 mm cable	1	€ 207,00	
677651	485/EXP/ MASTER SLAVE	Expansion board for connecting two EVO series control units in MASTER-SLAVE mode. For this functionality, each control unit must be connected to an expansion module.	1	€ 41,00	
677670	OUTPUT EXP 24V	Dry contact conversion module for 24V DC outputs.	1	€ 23,00	

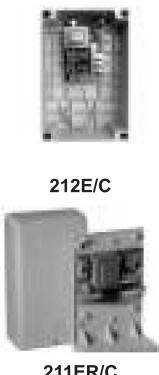

CONTROL BOARDS RANGE NORMA

400RR/C

COD.	Art.			€ x1
677140	400RR/C	Digital control board three-phase 400V AC (with box 100G) for 1 operator with encoder control. It is complete with anti-crushing safety device, integrated 433 MHz radio receiver, speed adjustment during normal cycle and slow down in opening and closing, force adjustment up to 70 levels and separate in open and close, anti-inertia braking device.	1	€ 452,00
677130	400RR	Only electronic circuit.	1	€ 430,00

CONTROL BOARDS RANGE START

212E/C

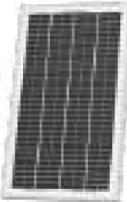

COD.	Art.			€ x1
677120	212E/C	Control board (with 100G box) for 1 or 2 230V AC operators, complete with 433 MHz radio receiver, automatic operating time learning, electronic force adjustment, controlled input for external safety device.	1	€ 194,00
677110	212E	Circuit only	1	€ 170,00
677540	211ER/C	Control panel (with 100A box) for the automation of 230V AC operators for roller shutters. Selectable operating logic (step by step, separated open/close, dead man command) programmable working times, with built-in 433MHz radio receiver.	1	€ 115,00

POWER SUPPLIES

COD.	Art.			€ x1
	163523	POWER SUPPLY 840mA	Power supply 24V - 20W. For more information on using the barriers with LED strips, see the table on p.128	1 € 55,00
POWER SUPPLY 840mA	163016	POWER SUPPLY 2A	Power supply 230VAC-24V 2.2A Used on NET-M230-I.	1 € 63,00

SOLAR POWER SYSTEM

COD.	Art.			€ x1
	681056	GREEN ENERGY/X	Solar power system to be used for applications with control board NET24N. The set includes: box with 2 pieces 18 Ah buffer battery, battery charge control circuit, standby power reduction circuit to be connected to the NET24N control board. Solar panel not included.	1 € 700,00
	681052	CHARGER/X	Battery CHARGER/X for GREEN ENERGY/X	1 € 95,00
	681054	SOLAR PANEL/XL	Solar panel 30Wp with possibility to install up to 2 panels (wall fixing plate included). (390x660x25mm)	1 € 397,00

RECHARGEABLE BATTERIES

COD.	Art.			€ x1
	629290	BAT	Batteries set with 2 x 12V batteries (1,2Ah for 24V operators) and connecting cables	1 € 78,00
	629293	KIT BAT LIVI/X-GEKO/X	Rechargeable batteries kit, 12V - 1,2Ah, complete with wiring LIVI/X-GEKO/X cables and fixing plate for GEKO/X and LIVI/X	1 € 70,00
	649200	BAT/PASS	Batteries set for PASS/N barriers complete with 2 x 4Ah batteries, fixing plates and connecting cables	1 € 179,00
	649201	BAT/STOP	Batteries set for STOP/N barriers complete with 2 x 4Ah batteries, fixing plates and connecting cables	1 € 179,00
	639590	BAT/ADV	Battery set for ADVANCE/N – SPACE/N, consisting of 2 x 12V batteries (1.2 Ah for 24V motors) charging board and wall-mounting box	1 € 168,00
	175001	117	Rechargeable battery, 12V, 4Ah	1 € 42,00
	175000	117B	Rechargeable battery, 12V, 1,2Ah	1 € 35,00
	175009	117G	Extra battery for GREEN ENERGY/X	1 € 209,00

BOXES FOR CONTROL BOARDS

COD.	Art.			€ x1
	679130	100A	Self-extinguishing ABS box to be inserted into LIVI sliding operators or for wall mounting (113 x h190 x 65 mm)	1 € 15,00
	679060	100G	Self-extinguishing ABS box (180 x h265 x 90 mm)	1 € 39,00
	679070	100GR	Self-extinguishing ABS box with raised cover (180 x h265 x 130 mm)	1 € 41,00
	679180	100GP	Wired cover with push buttons (180 x h265 x 60 mm)	1 € 137,00
	679140	100GG	Self-extinguishing ABS large 100G and 100GR protective box to IP55 (250 x h350 x 175 mm)	1 € 53,00

GENERAL TERMS AND CONDITIONS OF SALE

1. CONTRACT

1.1 All the Orders must be sent by the Customer in writing to DEA GATE AUTOMATION indicating the product code, product and the quantity ordered as well as the Customer's tax number, address and any other details required by the anti-money laundering legislation.

The Customer's order is considered as an irrevocable offer which expires after 30 (thirty) days.

The Contract for the sale of DEA GATE AUTOMATION products will be taken to be binding once 8 (eight) days have passed from the date the Customer receives the Order Confirmation from DEA GATE AUTOMATION (even by fax or e-mail) unless correspondence is received from the Customer during that 8-day period. It is the Customer's responsibility to check the Order Confirmation and to promptly communicate any errors or omissions and to return these Terms and Conditions with the acceptance herein signed.

1.2 DEA GATE AUTOMATION will not be bound by any standard or printed terms furnished by a Customer in any of its documents unless DEA GATE AUTOMATION expressly accepts it in writing.

1.3 These terms and conditions supersede any terms and conditions referred to, offered or relied on whether written or verbal and whether in negotiation or at any stage in the dealings between the Parties.

2. PRODUCTS

2.1 The range of Products distributed by DEA SYSTEM consists of mechanical Products, electronic Products and their accessories, the manufacture and installation of which are subject to the application of specific standards.

2.2 The Customer is aware that the goods supplied by DEA SYSTEM consist of mechanical and electronic products and accessories, the manufacture, marketing, installation and handling of which are subject to specific regulations; consequently, their distribution and installation require the intervention of qualified and specialised professionals, who provide the Customer with full information on the technical and operating characteristics of the products, on their correct installation and on safety in use. The Customer is aware that all automated fences fall within the scope of the 'Machinery' Directive, with all the legal consequences for resellers and installers, and with the obligation to keep the product's technical file, maintenance file and declaration of conformity.

2.3 The innovation, quality and technical nature of these Products require the intervention of specialised and competent professionals, distributors and/or installers, in order not only to fully satisfy end-users, but also to ensure their safety when using the Products. Consequently, DEA SYSTEM only sells the Products to Customers that it has selected in advance according to the qualitative criteria below:

- The Customer must be qualified in the sale or installation of the Products, and as such :
 - a) Have at least one (1) year's prior experience in the sale and/or installation of goods similar to the Products;
 - b) Provide the end-user with any support and advice likely to guide his or her choice towards the purchase of the Products best suited to the use envisaged and to reduce the risks of misuse;
 - c) Be able to provide the most accurate and complete information concerning the Products:
- including current standards applicable to their installation.
- in response to questions asked on this subject by the end user.
- The Customer undertakes to hold a sufficient stock of Products in terms of quantity, ranges and references, to satisfy the normal requests of its customers.
- The Customer must have a workshop enabling it to provide a quality after-sales and repair service for the Products.
- The Customer must make available to its customers, free of charge, a 'customer service' accessible during its opening hours, by telephone, fax, e-mail or any other means of remote communication, in order to answer questions concerning the Products, and in particular their installation or use.

The Customer must comply with the qualitative criteria listed above throughout his relationship with DEA SYSTEM.

2.4 It is expressly understood that, in view of the above, and in order to ensure the safety of end users in the use of the Products, the Customer is authorised to resell the Products:

- To any professional purchaser, distributor and/or installer, subject however to the latter also having been selected by DEA SYSTEM; in the event of any doubt on this point, the Customer is obliged to contact DEA SYSTEM beforehand.
- To any end user, provided however that he ensures that the installation of these Products is carried out by a professional installer.

3. DELIVERY/COLLECTION OF PRODUCTS

3.1 The terms of delivery are those indicated in the Order Confirmation and the products will be despatched per those agreed terms. DEA GATE AUTOMATION does not assume any responsibility for delays in delivery by the carrier. The dispatch terms shall not be, in any case, a fundamental term of the Contract.

3.2 In no case shall delays by DEA GATE AUTOMATION in the delivery of products confer on the Customer the right to rescind the Contract and/or claim compensation. The Customer by accepting these Terms waives any right to make any claim and/or counterclaim howsoever arising in this regard.

3.3 Delays in delivery of the product caused by a chance event, force majeure and/or any other reason beyond the control of DEA GATE AUTOMATION, shall not entitle the Customer to claim any indemnity and/or compensation nor shall it have the right to rescind the Contract or claim a reduction in the price thereunder.

A non-exhaustive list of such causes are force majeure, strikes, lock-out, industrial disputes, fire, electricity cuts, lack of raw materials, delays in delivery by suppliers, changes in the Law, earthquakes or any other natural disaster, war or revolution or any other event outside the control of DEA GATE AUTOMATION.

3.4 In the event of delays by the Customer in collecting the products from DEA GATE AUTOMATION, the Customer will be responsible for all warehousing costs whether at the premises of DEA GATE AUTOMATION or a third party and all security costs ancillary thereto, notwithstanding the fact that the risk of damage, deterioration, loss and/or theft passes to the Customer from the agreed dispatch date. In the event of such delays the Customer shall be obliged, by way of penalty, to pay a further 30% of the price agreed.

The Customer acknowledges that the location and type of warehousing and security in place at the premises of DEA GATE AUTOMATION is ideal for the safe storage of the products and shall raise no queries or objections in that regard.

3.5 DEA SYSTEM reserves the right in the event that products are not collected to issue proceedings against the Customer to protect its rights under the Contract.

4. PRICES AND PRICE-LIST

4.1 All prices are in Euro and do not include VAT.

4.2 Any modifications or variations to the pricelist will be communicated to the Customer by DEA GATE AUTOMATION in writing and the new prices will become effective for all transactions following such notification.

4.3 Unless otherwise agreed, prices are (EX WORKS) INCOTERMS ® 2010 at DEA GATE AUTOMATION Sandholes Road – BT80, 9AR – Cookstown – Co. Tyrone - Northern Ireland and include standard packaging.

4.4 If, after concluding the Contract pursuant to Article 1.1, by some extraordinary or unpredictable reason, the performance of the Contract becomes excessively onerous, DEA GATE AUTOMATION shall have the right to rescind the Contract and re-negotiate it with the Customer.

5. PAYMENTS

5.1 The terms and mode of payment are those indicated/referred in the Order confirmation. Any subsequent request for a change and/or delay in such payments must be agreed in writing with DEA GATE AUTOMATION. Payments made by credit instrument, bank drafts, cheque, electronic transfer or any other means are accepted by DEA GATE AUTOMATION subject to clearance of such instruments, the time needed of clearance shall not be treated as an extension of the time for payment under the original Contract.

Any Bank charges and/or other charges linked to the clearance of funds from the Customer shall be at the expense of the Customer.

5.2 Lack of payment or delayed payment, even of part of the amount due, entitles DEA GATE AUTOMATION to suspend performance of the Contract until all sums due have been paid or acceptable guarantees have been received or to terminate the Contract. DEA GATE AUTOMATION reserves its right under the Contract and at Law in such circumstances and in circumstances where the Contract calls for partial delivery of the product or for payment of a deposit before the delivery.

In any case DEA GATE AUTOMATION shall be entitled to suspend performance of the Contract or to rescind same should the financial standing or credit worthiness of the Customer be such that, in the opinion of DEA GATE AUTOMATION, it gives rise to a substantial risk of lack of payment and where the Customer has not fully and timely paid for products already delivered by DEA GATE AUTOMATION. In these situations, DEA GATE AUTOMATION reserves the right to modify at its sole discretion the dates and methods of payment previously agreed in the Order confirmation.

5.3 In no case shall defects in the product, even when expressly acknowledged by DEA GATE AUTOMATION, or delays in the agreed dispatch date, or delays in collection by the Customer, confer on the Customer the right to suspend payments and/or suspend any other obligations it may have under the Contract ("solve et repeate" clause).

6. GOODS PROPERTY

6.1 In the case of the deferred or instalment payments, the product remains the property of DEA GATE AUTOMATION until full payment has been received. The Customer is obliged to keep the product safe and when storing same should do so separately and in such a way that the product can readily be identified as being the property of DEA GATE AUTOMATION. All costs and expenses howsoever arising incurred by DEA GATE AUTOMATION in recovering the product from the Customer shall be at the Customer's expense.

6.2 Even if only one instalment is missed by the Customer, provided that said instalment is not inferior to 12,5% of the price, DEA GATE AUTOMATION shall have the right to (i) terminate the contract; (ii) require the Customer to deliver up the product in its possession or, if the Customer fails to do so promptly, enter any premises of the Customer or of any third party where the product is stored in order to recover it; (iii) retain any prior payments made for the product by the Customer. All costs and expenses howsoever arising incurred by DEA GATE AUTOMATION in recovering the product from the Customer shall be at the Customer's expense. DEA GATE AUTOMATION further reserves its rights to initiate proceedings for compensation in such cases.

6.3 If a Receiver is appointed over any of the assets or undertaking of the Customer or a winding up Order is made against the Customer or it goes into voluntary liquidation or examinership or calls a meeting or makes any arrangement or composition with creditors or commits any act of bankruptcy, all products of DEA GATE AUTOMATION shall immediately be made available by the Company and/or liquidator and/or Receiver for the purpose of reclaiming such goods.

7. WARRANTY, CONTESTATIONS AND RETURNS

7.1 Since products such as photocells, remote controls and other accessories undergo more wear and tear than other products, DEA GATE AUTOMATION warrants the absence of any vices and/or defects in the abovementioned products for 27 (twenty-seven) months as from the manufacturing date, to be proved by a valid tax document carrying the data of the purchased product and by the label pasted to each product bearing the code and the manufacturing date.

On motors and control panels, DEA GATE AUTOMATION warrants the absence of any vices and/or defects for 36 (thirty-six) months, 24 (twenty-four) months for TEO 700 and WILL 140 E, as from the manufacturing date printed on the original label.

If the possible Customers' objections as to the existence of vices/defects in the products are well-founded and accepted by DEA GATE AUTOMATION in the warranty period, DEA GATE AUTOMATION shall repair for free or, at its sole discretion, shall substitute the viced/defective products for manufacturing defects. The warranty does not cover return/shipping costs to be incurred by the Customer for sending and receiving of materials repaired / replaced. It is agreed that the warranty here above is limited to the vices/defects of the products expressly acknowledged and accepted by DEA GATE AUTOMATION, it being understood that any other injury, damage or expense of any nature incurred by the Customer is excluded.

All products that are replaced will remain the property of DEA GATE AUTOMATION.

DEA GATE AUTOMATION will not take into account complaints about the quality of the products, when the relevant products have been sold as second-standard ones, or under special conditions, or when the relevant products have been repaired by third parties without the prior consent of DEA GATE AUTOMATION. Any claim or dispute arising from a single product will not exempt the Customer from the obligation to collect the remaining amount of products, in accordance with the agreed terms and conditions of delivery.

7.2 Under penalty of cancellation of the warranty, the Customer shall notify in writing, by registered letter with return receipt, the found vices/defects within and no later than 8 (eight) days as from the delivery date, or, in case of hidden vices/defects, within and no later than 8 (eight) days as from the date of the relevant discovery. The burden of the proof as to the date of the discovery shall be borne by the Customer.

Unless otherwise agreed in writing by the Parties, all other ancillary expenses related to the substitution operations shall be borne by the Customer, who shall also take assume any related risks.

7.3 The warranty shall be excluded if the vices and/or the defects communicated by the Customer have been determined by the following causes:

I. the product has not been installed in accordance with the instruction manual provided by DEA GATE AUTOMATION; more precisely, without limitation of the foregoing, DEA GATE AUTOMATION shall not be liable in any manner whatsoever for failure to observe the assembly instructions and/or the electrical connection instructions and/or for failure to observe other specific regulations applicable at the moment of the installation and/or when accessories and mechanical parts DEA SYSTEM have been installed, used or connected without respecting the intended circuit diagram and the intended types of connection;

II. the product is not used in conformity with its intended purpose or its operating limits, as specified by the manufacturer in the technical documentation supplied with the product itself;

III. non-original DEA SYSTEM parts have been used for the installation of the motor;

IV. failures are due to tampering or improper repairs carried out by unauthorized personnel and/or by professionally unqualified personnel;

V. failures are caused by improper use or negligent use;

VI. lack of routine maintenance as specified by the manufacturer in the technical documentation supplied with the product itself;

VII. external factors such as electric shock, tampering even accidental, bumps and drops even accidental, exposure to moisture or steam, use in extreme thermal or environmental conditions, floods or other natural disasters;

VIII. removal or voluntary cancellation of the serial number.

IX. storage and/or safekeeping of the products in places and/or with modalities inadequate for their perfect conservation;

X. any other cause which cannot be ascribed to DEA GATE AUTOMATION.

The repair or replacement of parts during the warranty period does not extend the expiry date of the guarantee. DEA GATE AUTOMATION will not award any compensation for the period of inactivity of the product.

7.4 DEA GATE AUTOMATION shall accept, the return of defective products it being understood that the Customer shall bear all expenses and shall be the sole person responsible for the delivery in DEA GATE AUTOMATION premises in Sandholes Road - BT80, 9AR – Cookstown – Co. Tyrone – Northern Ireland, and provided that DEA GATE AUTOMATION previously authorizes the same delivery by agreeing on the return method; in case of non-compliance, the returned products will be rejected.

Returned goods shall carry the "DEA System feedback on returned goods" form properly filled in with item code, production date and a short description of each product failure.

8. LIMITATION OF LIABILITY

8.1 In no circumstances shall DEA GATE AUTOMATION be liable in contract, tort (including negligence or breach of any statutory duty) or otherwise howsoever arising, and whatever the cause thereof for any damage attributed to the utilisation of the product for a purpose inappropriate to its original purpose as set out in the instruction manual or other documentation accompanying the said product or furnished to the Customer.

8.2 Without prejudice of Article 20, DEA GATE AUTOMATION draws the attention of the Customer to its obligation under the applicable Law and in particular the obligations it has under Health and Safety legislation and the Customer acknowledges that compliance with such legislation is a matter entirely for the Customer and DEA GATE AUTOMATION shall not have any responsibility in relation thereto nor shall it be liable in any way for any damage caused to anyone or anything during the installation or maintenance of the product by the Customer or any third party.

9. PROHIBITION TO TRANSFER TO THIRD PARTIES

9.1 Unless otherwise agreed, the Customer does not have the right to re-sell, and/or transfer the product to third parties without first having paid the entire sum due to DEA GATE AUTOMATION.

9.2 In the event of the Customer receiving any letter of claim, court proceedings or letter of complaint from a third party in reference to a DEA GATE AUTOMATION product, the Customer must, within 14 days of receipt thereof, furnish DEA GATE AUTOMATION by registered post with a copy of such correspondence and/or proceedings. In default of such communication DEA GATE AUTOMATION reserves the right to rescind the Contract with immediate effect retaining any instalments paid by the Customer by way of penalty and reserving its rights under the Contract and the applicable Law to institute proceedings for further compensation and/or damages arising therefrom.

10. TRADEMARK AND INTELLECTUAL PROPERTY RIGHTS

10.1 The marketed products bear the registered trademark DEA SYSTEM®. DEA GATE AUTOMATION expressly prohibits the Customer to use/exploit/market the trademark for purposes other than this contract, except when previously authorized in writing. For the same reason, DEA GATE AUTOMATION reserves the right to inhibit the use of the trademark in case of violation of this prohibition and/or in case of lacking payment of the price by the Customer, and in any other case in which the Customer's use is illegal, both in off-line and/or on-line modalities.

10.2 DEA GATE AUTOMATION is the proprietor of all the technical and operational information, as well as of any information relating to the product, which is intended to be used only for the execution of this contract. For this reason, DEA GATE AUTOMATION prohibits the relevant dissemination to third parties.

10.3 The Customer who has become aware of any counterfeiting, imitation, illegal/wrong use of the trademark and/or of the commercial names shall immediately communicate it to DEA GATE AUTOMATION.

11. TAXES AND DUTIES

Any taxes, tariffs, duties, customs, fees, tolls, licenses, authorizations, leaves and/or other fiscal and/or customs and/or administrative burdens, notwithstanding their names, provided for by the law of the State in which the products are imported and/or by the law of the State in which the products will be resold, are completely and exclusively borne by the Customer, without prejudice to the provisions of the agreed term.

12. RE-SALE OF THE PRODUCT

12.1 DEA GATE AUTOMATION suggests that the Customer uses the recommended retail price contained in the DEA GATE AUTOMATION price list. However, it is entirely a matter for the Customer to fix its own price list.

12.2 In cases where the Customer is not installing the product itself but assigning this responsibility to a third party, it is a matter entirely for the Customer to satisfy itself that said third party has the requisite professional qualification and experience to install the product properly. If the Customer fails in this responsibility, DEA GATE AUTOMATION shall not be responsible for any claim howsoever arising either from the Customer or a third party.

13. EXTRA

Any extras subsequently ordered will form part of the Contract and be subject to these terms and conditions. The modalities of dispatch of extras shall be as agreed in writing between DEA GATE AUTOMATION and the Customer.

14. NO ASSIGNMENT OF CONTRACT

This Contract shall not be assigned by the Customer in whole or in part without the prior written consent of DEA GATE AUTOMATION. DEA GATE AUTOMATION reserves the right to assign this Contract in whole or in part on prior notification to the Customer.

15. LANGUAGE

These terms and conditions are in the Italian language. In the event of same being translated into another language, the translation is for indicative purposes only and shall have no legal effect.

16. WAIVER

In any instance in which DEA GATE AUTOMATION either does not enforce or does not insist on strict compliance with one or more clauses of these terms and conditions, or of the Contract, this shall not be taken as a general waiver of said clause or said rights and shall not inhibit DEA GATE AUTOMATION subsequently relying on the punctual and strict compliance therewith.

17. SEVERABILITY

If any term, or provision of these terms and conditions is held by a court of competent jurisdiction to be invalid, illegal, void or unenforceable, the remainder of the terms set forth herein shall remain in full force and effect and shall in no way be affected impaired or invalidated.

18. EXCLUSIVE JURISDICTION

For any dispute related to the interpretation, execution and/or termination of the Contract the sole competent court shall be exclusively the Court of Vicenza (Italy).

Notwithstanding the above, DEA GATE AUTOMATION shall have the right to start any legal proceedings, included preventive or provisional proceedings, before the Court of the place where the Customer has its domicile pursuant to Article 63 of the EU Regulation No 1215/2012 of 12 December 2012 on jurisdiction and the recognition and enforcement of judgments in civil and commercial matters and subsequent amendments.

19. APPLICABLE LAW

The Italian law is applicable to the present Contract, it being understood that the application of the United Nations Convention on the International Sale of Goods (Vienna Convention 11th April 1980) is in any case excluded.

20. QUALITY SYSTEM – TECHNICAL RULES

20.1 The Customer is aware that the goods marketed by DEA GATE AUTOMATION consist in mechanical/electronic products and their accessories and that the relevant manufacturing, marketing, installation and maintenance are ruled by specific provisions; therefore, their distribution and installation requires the assistance of qualified and expert professionals, who can provide to the final customer a complete set of information on the technical and operational features of the products, their correct installation and safety measures (in particular, reference is made to the provisions EN12453 "Industrial Commercial and garage doors and gates - product standard" and EN 12445 "Industrial Commercial and garage doors and gates - safety in use of power operated doors", and to the European directives as well). The Customer is aware that all automatic locking devices fall within the scope of application of the "Machinery" Directive, with any corresponding obligations for resellers and installers and with the obligation to keep the technical documentation file of the product, to carry out the maintenance and with reference to the EC declaration of conformity.

20.2 As a consequence of the provision under Article 20.1 above, the Customer must be a qualified seller/installer of the products and he or she must therefore:

- a)** have a past experience of at least 1 (one) year in the sale and/or installation of products similar to the products of DEA GATE AUTOMATION;
- b)** provide to the final customer a consultancy service in order to guide the choice towards the most adequate product, taking into consideration the intended use of the product itself, in order to reduce the risk of an improper use;
- c)** be able to provide the final customer with the most accurate and complete information about the products – included the provisions regulating the installation – in relation to the questions raised by the final customer.

It is expressly understood that, in the light of the above and in order to ensure the safety of the final users/customers with respect to the products of DEA GATE AUTOMATION, the Customer is authorized to sell the products to the following categories:

- to any professional buyer, distributor and/or installer, provided that said professional has already been selected also by DEA GATE AUTOMATION or provided that DEA GATE AUTOMATION has previously given its consent;
- to any final customer, provided that it has been previously and duly verified that the installation of the DEA GATE AUTOMATION products is carried out by a professional installer.

Acceptance. The Customer hereby declares to have carefully read the above General Terms and Conditions of Sale, and to expressly approve them all, without any exception whatsoever.
